

ST. ELIZABETHS WEST CAMPUS

Washington, DC

Procon provides construction and program management services for the multi-year, multi-phase redevelopment of this 176-acre high security federal campus.

The \$4.4 billion St. Elizabeths West Campus project consists of the redevelopment of the 176-acre west campus of the National Historic Landmark site located in southeast Washington, DC for the consolidated headquarters of the Department of Homeland Security. The redevelopment includes 4.5 million SF of new construction and adaptive reuse of approximately 50 historic buildings.
