

# INNOVATION IS AT THE HEART OF WHAT WE DO

Since 2000, Procon has provided construction, project, and program management services in support of the A/E/C industry. With 160+ employees delivering work in 36 states, we provide federal agencies, state and local governments, and private clients with planning, design, construction, and technology solutions to successfully manage and deliver buildings and infrastructure projects.

## CONSTRUCTION MANAGEMENT

We collaborate closely with owners, occupants, designers, and contractors to provide full-service project, program, and construction management solutions.

- Inspection & Quality Assurance
- Constructability Reviews
- Procurement Support
- Safety Compliance
- Value Engineering
- Design Management
- Comprehensive Project Planning
- Space & Real Estate Planning
- Move Management/FF&E Coordination
- Historic Preservation
- Sustainability Consulting
- Risk & Claims Management

NPS, Lincoln Memorial

## PROJECT CONTROLS (ESTIMATING & SCHEDULING)

Whether integrated into our CM solutions or as stand-alone services, we prioritize precision and efficiency to deliver projects on time, and on budget.

- Design Phase Cost Estimating
- Continuous Cost Monitoring & Control
- Change Order Management
- Detailed Project Scheduling
- Identification & Resolution of Conflicts
- Earned Value & Financial Management

NASA, Kennedy Space Center

## COMMISSIONING & ENERGY

To maximize system performance, user comfort, and operational efficiencies, we offer comprehensive commissioning and retro-commissioning solutions.

- Testing & Balancing
- Building Automation Systems
- Energy Audits
- HVAC Optimization

AOC, US Botanical Gardens

## TECHNOLOGY

At the forefront of construction technology, we identify and implement solutions to improve quality, documentation, and access to real-time data.

- State-of-the-Art Photo Documentation
- Geographic Information Systems (GIS)
- Augmented Reality
- Digital Twin

USACE Mobile, Drone Capture

## SOFTWARE SELECTION & IMPLEMENTATION

We are committed to solving project challenges with integrated solutions through thoughtful planning, research, and comprehensive needs analysis.

- Project Management Information System (PMIS) & Other Software Implementation
- Workflow Optimization
- User Support & Training

Sample PMIS Systems

## CLIENT-CENTRIC APPROACH

As we grow, we hold firm to our roots, committed to our clients and the quality of service we provide. However big, small, or far, we're there to partner with you. The fact that over 90% of our work comes from repeat clients is a testament to our dedication to innovation and collaborative solutions.

## BUILDING THE FUTURE

We're fueled by innovation, technology, and a solutions-driven approach to improve quality, efficiency, and identify new ways to add value. In the past year, we've added experienced staff in new geographies. Through our planned expansion, we're able to mobilize teams faster, engaging in projects immediately after contract award.

## ADVANCING THE INDUSTRY

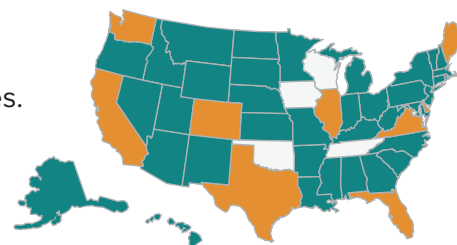

At Procon, we're committed to sharing innovations and ideas, partnering to share lessons learned, and researching new technologies to advance our industry together. We've cultivated partnerships with various universities, clients, technology companies, and peer firms. These collaborations fuel our continuous pursuit of progress and excellence.

## SMALL BUSINESS, BIG REACH

Having successfully completed the 8a program, we are now a small, disadvantaged business, providing services across multiple NAICS codes. As we continue to grow, we remain committed to supporting other small businesses through mentor-protégé agreements, joint ventures, and various prime/subcontractor arrangements, tailored to meet our clients' unique needs and objectives.
